SAVINGS ENGINE

VirtualWallet by PNC

Your Savings Engine helps you save money even when you're not thinking about it. Create savings rules to move money to your Growth account regularly, and Punch the Pig when you have some extra cash.

1 SAVE AT SCHEDULED TIMES

Get into the habit of saving regularly. Create a savings rule to move money to your Growth account on a regular basis.

Pick the amount, transfer frequency and start date, and the transfers will be set up and appear on your Calendar.

Don't worry if you're running low—the Savings Engine doesn't make the transfer if you don't have enough money in your Spend account.

2 SAVE WHEN YOU PAY BILLS

After you've paid your bills through Virtual Wallet, tuck away a little money in your Growth account for later.

Turn on the Bill Pay Savings Tool to get a reminder to save after you schedule a bill.

3 PUNCH THE PIG

When you're in a saving mood, punch your pig—your own customized piggy bank.

Pick your pig avatar and sound to customize your pig to your taste.

When your pig pops up, give it a punch and save some money. Even a little bit helps!
