Server
Depends on
Port
Copy stack to backup
Copy failed server to backup
(because heat is trying to replace it
for recovery)
Backup Stack
Some resources
Backup Stack
Some resources
Server
There is a dependency on Port
but Port does not exist in backup stack!!!
So cannot delete backup stack.

Server
Port template
definition
There is a dependency on Port
and Port definition exists in
backup stack. So dependencies
will be resolved.
