

Start ,reconfigure' – ,Configure Sales Order Logistics'

,Shipping Default Policy' is configured with ,Invoice Based on Sales Order':

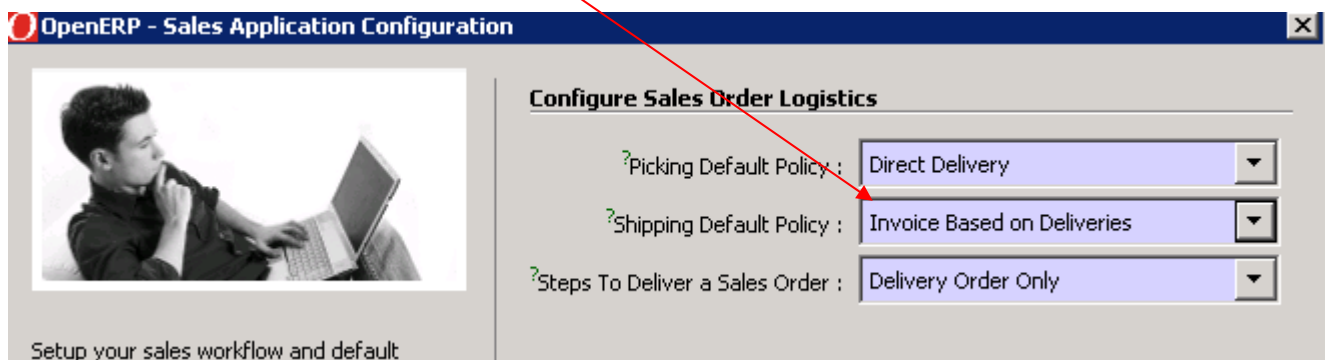

**OpenERP - Sales Application Configuration**

**Configure Sales Order Logistics**

- ?Picking Default Policy : Direct Delivery
- ?Shipping Default Policy : Invoice Based on Sales Orders
- ?Steps To Deliver a Sales Order : Delivery Order Only

Setup your sales workflow and default values.

Change this to ,Invoice Based on Deliveries':

**OpenERP - Sales Application Configuration**

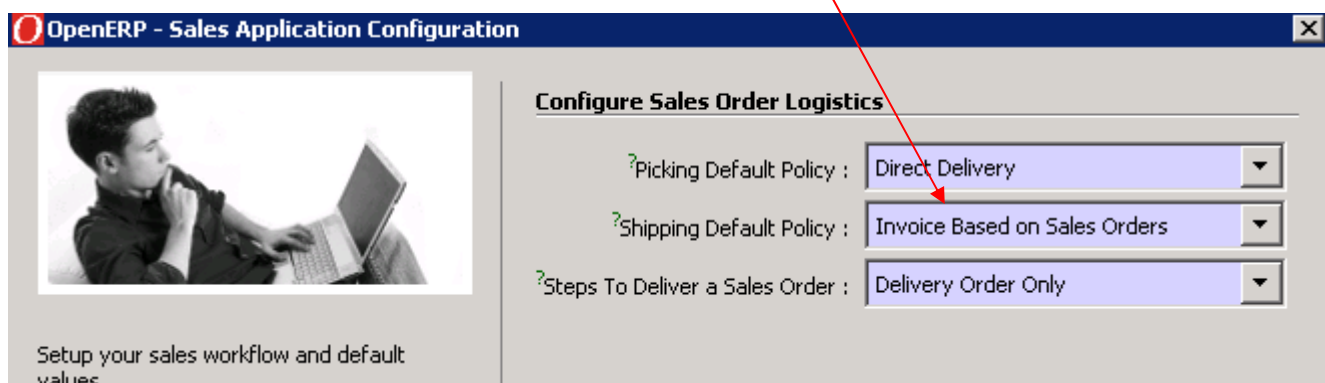

**Configure Sales Order Logistics**

- ?Picking Default Policy : Direct Delivery
- ?Shipping Default Policy : Invoice Based on Deliveries
- ?Steps To Deliver a Sales Order : Delivery Order Only

Setup your sales workflow and default

BUT

When I start the wizard again, I still find ,Invoice Based on Sales Order' – the change I made has not been saved!!!

**OpenERP - Sales Application Configuration**

**Configure Sales Order Logistics**

- ?Picking Default Policy : Direct Delivery
- ?Shipping Default Policy : Invoice Based on Sales Orders
- ?Steps To Deliver a Sales Order : Delivery Order Only

Setup your sales workflow and default values.
