

Ubuntu Mono
Serif-style
clarification
2010-12-04

a.

The image shows the characters '1', 'l', and 'i' in a serif font style. The '1' has a thin, slightly curved top serif. The 'l' has a thin, curved bottom serif. The 'i' has a thin, curved bottom serif and a solid dot above it. All characters are positioned above a horizontal baseline.

b.

The image shows the characters '1', 'l', and 'i' in a serif font style. The '1' has a thin, slightly curved top serif. The 'l' has a thin, curved bottom serif. The 'i' has a thin, curved bottom serif and a solid dot above it. All characters are positioned above a horizontal baseline.

c.

The image shows the characters '1', 'l', and 'i' in a serif font style. The '1' has a thin, slightly curved top serif. The 'l' has a thin, curved bottom serif. The 'i' has a thin, curved bottom serif and a solid dot above it. All characters are positioned above a horizontal baseline.

d.

The image shows the characters '1', 'l', and 'i' in a serif font style. The '1' has a thin, slightly curved top serif. The 'l' has a thin, curved bottom serif. The 'i' has a thin, curved bottom serif and a solid dot above it. All characters are positioned above a horizontal baseline.

e.

The image shows the characters '1', 'l', and 'i' in a serif font style. The '1' has a thin, slightly curved top serif. The 'l' has a thin, curved bottom serif. The 'i' has a thin, curved bottom serif and a solid dot above it. All characters are positioned above a horizontal baseline.
