The following packages have unmet dependencies:

gnucash: Depends: gnucash-common (>= 1:2.4.2-1ubuntu1) but 1:2.4.2-1ubuntu1 is installed

Depends: libglade2-0 (>= 1:2.6.1) but 1:2.6.4-1build1 is installed

Depends: libgoffice-0.8-8 (>= 0.8.8) but it is not installed

Check if you are using third party repositories. If so disable them, since they are a common source of problems.

Furthermore run the following command in a Terminal: apt-get install -f
